PROJECTS

Shiv Shakti Suits – E-Commerce Website

Live: [Shivshaktisuits.shop](https://shivshaktisuits.shop)

- Developed a full-stack e-commerce website with user authentication, product management, cart, and order processing features.
- Improved debugging and backend logic, reducing API failures during testing

HomyGo – Airbnb Inspired Property Listing Platform

Live: [HomyGo](https://homygo.vercal.app)

- Built an Airbnb-inspired accommodation platform enabling users to list and browse properties with a structured flow.
- Focused on database connectivity and user input validation.

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Good Communication Skills
- Adaptability and Continuous Learning

ACHIEVEMENTS

- Secured top performance in core computer science subjects such as Data Structures and Algorithms, DBMS, and Operating System during BCA Coursework.
- Successfully completed multiple projects, demonstrating strong time management, teamwork, and adaptability to new technologies.
- Consistently maintained above-average academic performance while learning programming through self-study.
